

Extend the reach of your event

Te Pae Christchurch is a new generation, international standard convention centre which excels in the use of cutting-edge technology. Our AV Supplier Panel and our in-house AV Production team can deliver a range of customised hybrid products, including full studio set-ups and single point-of-view livestreaming options, that can be used across all of our event spaces, or remotely to extend the reach of your event.

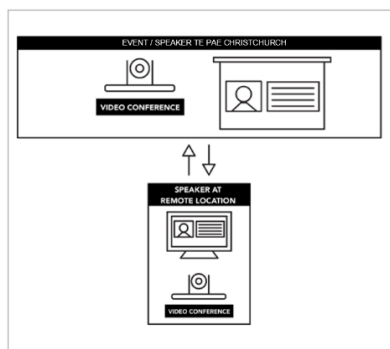

LIVESTREAMING

Livestreaming is a one-way broadcast from a location out to several platforms for users to view your content. It is a fantastic way for your audience to connect and view your event regardless of their geographical location.

- ✓ Any event held at the centre can utilise our livestreaming offerings
- ✓ Livestreams can be viewed by anyone in the world and can be saved to be played back at a later date
- ✓ Presentations can be integrated so audiences can see all relevant content
- ✓ Additional second screen technologies can be deployed if required.

VIRTUAL PRESENTATION

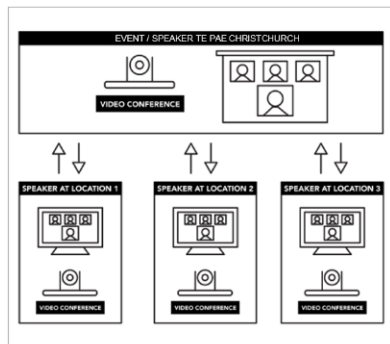

We can provide site-to-site connectivity to an offsite location or beam into an event anywhere in the world. Platforms are fully integrated to maximise speaker engagement and audience participation.

- ✓ Events held at Te Pae Christchurch can be connected to locations around the world
- ✓ Presentations can be integrated into video conferencing to provide a fully immersive experience.

Hybrid Events

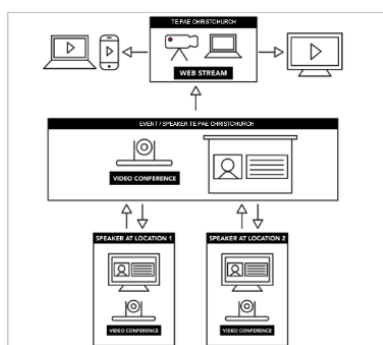

VIDEO CONFERENCING

Video conferencing offers two-way communications from any location. This provides connectivity to several remote locations allowing multiple destinations to be streamed anywhere in the world.

- ✓ Ideal to integrate offsite speakers into your event
- ✓ Events can be connected bi-directionally to external locations around the world
- ✓ The centre's video conferencing units soft codecs allow for a range of different platforms
- ✓ Presentations can be integrated into video conferencing to provide a full immersive experience
- ✓ Multiple camera/video feeds can be displayed on one screen in each location.

WEBINARS

A webinar is an engaging online event where a speaker or small group of speakers, deliver a presentation to a large audience who participate by submitting questions, responding to polls and using other available interactive tools.

- ✓ Digital platforms allow for maximum audience participation and engagement
- ✓ Events can be connected to audience members around the world
- ✓ Gives the ability for audience members to be interactive with presenters
- ✓ Presentations can be integrated
- ✓ Multiple camera/video feeds can be displayed on one screen in each location.
